Company Overview

Kerala Infrastructure and Technology for Education (KITE) is a state-owned special-purpose company under the Department of General Education of the Government of Kerala, India. Established in August 2017, KITE evolved from the IT@School Project to enhance Information and Communication Technology (ICT) in education. KITE aims to integrate technology into the educational framework, ensuring ICT-enabled education across schools in Kerala. citeturn0search10

Core Services

1. **ICT Training Programs**
   KITE offers comprehensive training programs to familiarize teachers and students with operating systems, office software, hardware maintenance, internet usage, and ICT-enabled content. Specialized training includes:
   - **Hardware Training**
   - **Internet Training**
   - **IT Training for the Visually Challenged**
   - **Camera Handling Training**
   - **Animation Training Programme for Students (ANTS)**

2. **KITE VICTERS Channel**
   KITE operates KITE VICTERS (Versatile ICT Enabled Resource for Students), an exclusive educational channel aired from 6 am to 11 pm. VICTERS provides interactive virtual classrooms, enabling direct communication between students, teachers, and subject experts.

3. **E Language Lab**
   The E Language Lab program supports English Language Teaching (ELT) by developing stories in print, audio, and video formats. These resources are shared with teachers using the Moodle learning management system, enhancing English communication skills among students.

4. **Little KITES IT Clubs**
   The Little KITES IT Club initiative features over 100,000 student members, offering training in areas such as animation, cyber safety, Malayalam computing, hardware, and electronics. It is recognized as the largest student IT network in India.

5. **School Wiki**
   Modeled on Wikipedia, School Wiki fosters collaborative learning by allowing schools to upload educational content and details in Malayalam. This platform includes information on school infrastructure, alumni, clubs, class magazines, and local encyclopedic projects.

Industry Expertise

With a focus on integrating technology into education, KITE serves the educational sector in Kerala, providing ICT solutions, training programs, and digital resources to schools, teachers, and students.

Why Choose KITE?

- **Pioneering ICT in Education:** KITE leads in implementing ICT-enabled education, ensuring students and teachers are equipped with necessary technological skills.
- **Comprehensive Training:** Offers diverse training programs catering to various aspects of technology and education.
- **Innovative Platforms:** Develops platforms like KITE VICTERS and School Wiki to enhance learning experiences.
- **Inclusive Initiatives:** Programs like Little KITES IT Clubs and IT training for the visually challenged promote inclusivity in education.

Engagement & Partnership Models

KITE collaborates with schools, government bodies, and educational institutions to implement its programs, providing resources, training, and support to integrate technology into education effectively.
